

Access Anytime, Anywhere

eVault365 enables you to access, save and print documents from anywhere anytime. View and share information and documents at your convenience, 24x7.

Get Up and Running Quickly

eVault365 requires no hardware or software installation: all you need is a computer with Internet access. Get started immediately upon getting your subscription!

Go Paperless

Save paper by storing documents and information online and support your green initiative! Eliminate physical documents as well as the time and cost involved in storing and retrieving them.

Ensure Your Data is Safe and Available

eVault365 allows only authorized users to view information that is relevant to their role. eVault365 has incorporated robust security measures to protect against online theft, spyware, malware, viruses and malicious bots.

Automatic daily backup ensures that your data is always safe. eVault365's IT infrastructure is provisioned with Business Continuity and Disaster Recovery measures to enable maximum uninterrupted access to users. Data centers have biometric systems for added security.

CHALLENGE

All businesses need secure online document storage, but few businesses can afford or manage it effectively. eVault365 is the answer: an affordable, easy-to-use online document management and collaboration solution within the reach of every business.

Documents Management and Collaboration

eVault365 is an easy and secure way to store, access, organize and share business documents such as Contracts, Tax Returns, Financial Reports, Banking and Insurance Documents, Employee Agreements, NDAs, or any other documents or records.

eVault365 lets you store critical files in common formats such as Word, PDF, PowerPoint, Excel, image files, etc.

Organize and Control Your Information

Create hierarchical folders to arrange and organize documents. You can control read-write privileges of users and ensure that each person has only relevant access.

Have Employees and Clients Use It – Easily

eVault365 is extremely user-friendly, and anyone with minimal experience of working with computers can use it easily. You can upload documents directly into a folder in eVault365. Creating folders, archiving documents, sharing documents – it's all so easy!

Upload Documents Quickly with Desktop Utility

eVault365 comes with a unique desktop utility, that allows you to upload multiple Microsoft Office documents from your PC to your personal document library in eVault365 in a secure manner. You need not open the browser and access the eVault365 website, just select the files to upload and the desktop utility will do the rest for you - saving your precious time!

MS Exchange Integration

eVault365 integrates with Microsoft Exchange seamlessly to synchronize your Outlook Calendar, Tasks, Reminders, and Address Book.

Ensure Effortless Disaster Recovery

eVault365 also acts as your simple, cost-effective and reliable data protection solution since your documents and critical files are stored at a secure remote location for safe recovery in case of a disaster.

Scale to Your Needs

Pay only for the storage space you want. Increase storage space almost instantly according to your needs.

Help and Support

eVault365's context-sensitive online help enables you to quickly find the answers you need. For a quick overview you can also download our 'Getting Started' guide for quick a overview of eVault365 features.

If you need more help, call us or chat live with a Paramount representative between 8.30 a.m. and 5.30 p.m. EDT on business days, or send an email to info@paramountsoftware.com.

Find Documents Quickly

Access the information you need with a few clicks, instead of digging through stacks of paper files.

Use search to quickly find the documents you need. eVault365 allows you to search full-text, document names, authors, summaries and formats to help you quickly find the document you want.

Send Single Documents Directly to eVault365

eVault365 allows you to send single Microsoft Office documents that you may be working on directly to your eVault365 document library with a single click. No need to save the document on your PC and then manually upload the file. Just use the familiar 'Print' command and send documents directly to eVault365.
